TO WHOM IT MAY CONCERN:

RE: ALLSTAR AUDIO

The Charlie Daniels Band has been working with Mike Borne and AllStar Audio for over 15 years and whether it's 10,000 people or 100 people, Mike and his team have always given 100% to The CDB. There aren't many audio companies that are still in business after 20 years for one thing. But still treating each client as a friend as your company has grown is almost unheard of these days. Mike Borne is one of those exceptions. Mike has always been there for The CDB, through thick and thin, and we have always been able to depend upon him. His equipment and his staff have stayed current with the ever changing technology.

The best recommendation Charlie Daniels and The CDB can give someone is that they trust them – and we trust Mike Borne. He's an asset to any event.
